Experience

Om Informatics | UI/UX & Graphic Designer, Mumbai, India | On site (July 2023 - Present)

- Design visually captivating assets for websites, mobile apps, and social media, ensuring a seamless user experience.
- Create wireframes, prototypes, and interactive designs to effectively communicate and refine design concepts.
- Collaborate with cross-functional teams to gather user feedback, inform design decisions, and ensure cohesive implementation.
- Stay updated on UI/UX trends, user-centered design principles, and industry best practices to enhance digital products.

Clocktos Infotech | UI/UX Designer, Mumbai, India | Remote (Dec 2022 - June 2023)

- Collaborate with the team to understand user requirements and translate them into intuitive and visually appealing user interfaces.
- Researching the latest trends and implementing designs with the existing software designs.
- Ensure that the user interface is consistent across different screens and devices, following the company's design guidelines.
- Design and develop user interface components, such as buttons, forms, navigation menus.
- Assist in resolving any designs-related issues or bugs that arise during the development and testing phase.
- Collaborating with other designers and seeking input and inspiration from the design community.

Digital Aided School | UI/UX Designer, Mumbai, India | Remote (Mar 2022 - May 2022)

- Keeping up with the latest design trends, industry best practices, and emerging technologies.
- Creating wireframes, mockups, and prototypes to visualize and communicate design concepts.
- Developing intuitive and visually appealing user interfaces that align with the product's brand and target audience.
- Providing design support and guidance to team members, such as developers or other designers.
- Communicating design decisions effectively, both verbally and visually.
